The Journal of Neurology and Psychopathology

VOLUME XI, 1930-31

INDEX.

INDEX.

A.

Acetic-anhydride test in cerebrospinal fluid (C. Thomas), 174
Activity, normal and morbid (E. Bleuler) 73
Adiposo-genital dystrophy. *See* Dystrophy
ADLER, ALFRED: *The Science of Living*, review, 88—*The Case of Miss R.*, review, 93
Alcohol, effects of an intelligent and associative performance (Raymond B. Cattell), 75
Alcoholic deliria and other acute alcoholic psychoses, spinal drainage in (Harry Goldsmith) 280
Alcoholic mental disease, recent statistics of (Horatio Pollock and Frederick W. Brown), 78
Alcoholic psychoses, post-prohibition, in New York State (William C. Garvin), 275
Alcoholism, chronic, the pathological anatomy of (T. Ohkuma), 276
Alcoholism, personality factors in (H. H. Hart), 360
ALEXANDER, FRANZ: *Psychoanalysis of the Total Personality*, review, 186
ALLEN, A. H. B., *Pleasure and Instinct*, review, 189
ALLEN, I. M.: Tumours involving the cauda equina, 111
Allonal, possible abuse of (L. H. Smith and P. Sloane), 357
ALPERS, B. J.: The cerebral and spinal complications occurring during pregnancy and the puerperium, 72
Amaurotic idiocy. *See* Idiocy.
Amentia and dementia praecox, hepatic function in (S. Gulfotta), 366
Amentia and other mental illness, behaviour of the bilirubin in the blood in (C. Ugurgieri), 277
Amyotrophic lateral sclerosis (G. G. Noto), 352
Angioma arteriale racemosum in an acallosal brain (R. M. Stewart and W. Ross Ashby), 289
APPEL, K. E.: The specific dynamic action of protein in relation to mental disease, 80
Aqueduct of Sylvius occlusion of (W. D. Sheldon, H. L. Parker, and J. W. Kernohan), 176
Area striata in man, projection of the macula on (B. Brouwer), 258
ARKUSH, ALBERT S.: Incidence of syphilis in insanity, 367
ARMENISE, P.: The chemical induction of hyperpyrexia in the treatment of general paralysis and other diseases of the neuraxis, 270
ASHBY, W. ROSS (and R. M. STEWART): Angioma arteriale racemosum in an acallosal brain, 289
Asthma and manic-depressive psychosis, alternation between (P. Sandri), 363
Ataxia, hereditary, the congenital morphological anomalies of the cranium and the vertebral columns in (U. De Giacomo), 261
Auditory disturbance, importance of in mental pathology (P. Ottonello), 365
Attitude, effect of upon feeling (E. Francis Wells), 358
Auditory imperception (S. Barton Hall and Muriel Barton Hall), 304
Axillary "menstruation" in the male (Ernest E. Hadley), 279

B.

BABONNEIX, L.: *Syphilis Héréditaire du Système Nerveux*, review, 89
BAILEY, L. S.: The diagnostic value of sodium fluorescein in epidemic cerebrospinal meningitis, 260
BAILEY, P: Tumours of the third ventricle, 263
Bailliart's ophthalmodynamometer. *See* Ophthalmodynamometer
BALTHASAR, K.: The syndrome of the corpus Luysii, 265
BARBÉ, ANDRÉ: *Psychiatrie*, review, 287
BARTELME, P.: Mental and physical development of children prematurely born, 365
Basal ganglia. *See* Ganglia
Basal metabolism. *See* Metabolism
BELLAVITIS, C.: The study of vital coloration in the nervous system, 261
BENJAMIN, ERICH: *Grundlagen und Entwicklungsgeschichte der Kindlichen Neurose*, review, 282
BERTRAND, IVAN: Morphological study of the inferior olivary complexus in man, 258—*Techniques Histologiques de Neuropathologie*, review, 286
BIELSCHOWSKY, MAX (and J. HALLERVORDEN): Symmetrical areas of softening in the frontal lobes in Wilson-pseudosclerosis complex, 354
Bilirubin in the blood in amentia and other mental illness, behaviour of (C. Ugurgieri), 277
BLECKWENN, W. J.: Production of sleep and rest in psychotic cases, 369
BLEULER, E.: Normal and morbid activity, 73—The physiogenic and psychogenic in schizophrenia, 361
Blood-vessels, cerebral, functional circulatory disturbances and organic obstruction of (F. Hiller and R. R. Grinker), 172
Bushing, biological significance of (John T. Macurdy), 180
Boltz (acetic-anhydride) test in cerebrospinal fluid (C. Thomas), 174
Boltz test in cerebrospinal fluid (Burnham S. Walker and Francis H. Sleeper), 366
BONAR, B. E.: The diagnostic value of sodium fluorescein in epidemic cerebrospinal meningitis, 260
BOUMAN, K. H.: The pathological anatomy of brain parenchyma at the involution period, 276
BOUMAN, L.: Hæmorrhage of the brain, 347
BOWMAN, K. M.: Parathyroid therapy in schizophrenia, 84
BOYNTON, M. ADELIA: Posture of children during sleep, 65
BOZZI, R.: Clinical and anatomo-pathological contribution to the study of tumours of the temporal lobe, 262
BRADLEY, ISABEL A.: Manic-depressive psychosis in identical twins, 184
Brain, cysticercus of, and eosinophilia in the spinal fluid (C. Rizzo), 356
Brain of a deaf-mute, upper temporal surface of (L. Horn), 350
Brain diseases, acute, due to functional disturbance of the circulation (E. de Vries), 348
Brain, hæmorrhage of the (L. Bouman), 347
Brain and mental illness, 342
Brain parenchyma, pathological anatomy of, at the involution period (K. H. Bouman), 276
Brain, pressure atrophy of widespread, and its probable relation to the function of the Pacchionian bodies, and the cerebrospinal circulation (Temple Fay and N. W. Winkelman), 68
Brain and psyche (M. Reichardt), 74
BRAIN, W. RUSSELL (and E. B. STRAUSS): *Recent Advances in Neurology*, second edition, review, 190
Brain-liver ratio in insanity (G. W. T. H. Fleming), 79
Brains of rabbits, zones of grape-like disintegration in the (V. M. Buscaino), 351

Brainstem, transactions of at varying levels, extensor tonus after (S. W. Ranson and J. C. Hinsey), 168
Brainstem, relation of the level of transection of, to the occurrence of decerebrate rigidity (W. F. Windle), 64
BRIDGE, EDWARD M.: Mechanism of the ketogenic diet in epilepsy, 356
Bromide intoxication (O. Diethelm), 365
BROUWER, B.: On the projection of the macula on the area striator in man, 258
BROWN, FREDERICK W.: Recent statistics in alcoholic mental disease, 78
BRUSH, EDWARD N.: The temporal judgment during sleep, 179
BUCKLEY, R. C.: Intracerebral calculi, 171
BÜHLER, KARL: *The Mental Development of the Child*, review, 376—*Bulletin of the Neurological Institute of New York*, vol. I, No. 1, review, 379
BURNS, C. L. C.: Movement and types in children, 358
BUSCAINO, V. M.: Examination of cases of dementia præcox during the three-year period, 1926–1928, by histoneuropathological and encephalographic methods and by examination of the cerebrospinal fluid, 274—Zones of grape-like disintegration in the brains of rabbits, 351
BUSINGER, OTTO: *Inversions-atmung und Geisteskrankheit*, review, 188

C.

Caffeine, effects of on intelligent and associative performance (Raymond B. Cattell), 75
Calculi, intracerebral (R. C. Buckley), 171
CARMICHAEL, ROBERT:—The pathology of chronic epidemic encephalitis: a histological study of four cases with widespread cerebral lesions, 207
CASPER, J.: Forced grasping and frontal lobes, 263
CASTLE, W. B.: Experimental combined system disease, 260
Catatonia, mescalin, and the experimental production of the manifestations of dementia præcox (H. de Jong), 275
Cats, "thalamus" and "striatum," unilateral (G. Schaltenbrand and S. Cobb), 347
CATTELL, RAYMOND, B.: The effects of alcohol and caffeine on intelligent and associative performance, 75
Cauda equina, tumours involving (I. M. Allen), 111
Cerebral blood-vessels. *See* Blood-vessels.
Cerebral cortex during unconsciousness (R. L. Worrall), 328
Cerebral hæmorrhage, the tissue, cytological, and vascular alterations of the central nervous system in the pathogenesis of (G. Daddi), 259
Cerebral and spinal complications occurring during pregnancy and the puerperium (B. J. Alpers and H. D. Palmer) 72
Cerebral trauma. *See* Trauma.
Cerebrospinal fluid, Boltz (acetic-anhydride) test in (C. Thomas), 174—(Burnham S. Walker and Francis H. Sleeper), 366
Cerebrospinal fluid in general paralysis treated by malaria, cytology of (H. Claude and A. Dimolesco), 82
Cerebrospinal fluid, potassium bichromate reaction in (G. G. Noto), 349
Cerebrospinal fluid pressure in hydrocephalus and microcephalus (G. de M. Rudolf), 356
Cerebrospinal fluid, routine examination of: report on the examination of 3,200 fluids (Neil McDiarmid), 247
Cerebrospinal fluid in syphilitic nervous disease, precipitation reaction to formaline in (L. Giovanni), 350
Cerebrospinal fluid, ultra-violet light in examination of (E. Fretson Skinner), 144
Cerebrospinal "giant cocci" meningitis, unusual case of (M. H. Weinberg), 175
Cerebrospinal meningitis, epidemic, diagnostic value of sodium fluorescein in (B. E. Bonar and L. S. Bailey), 260
CHAPPELL, M. N.: Problem of localisation in experimentally induced convulsions, 168
Children's thinking. *See* Thought
Cholesteatoma of the spinal cord (P. Pitotti), 352
Cholesterol, serum, in mental disorders (A. Glen Duncan), 78
Chorea, Sydenham's, pathological anatomy and physiology of (J. Lhermitte and Ph. Pagniez), 270
Circulatory disturbances of the cerebral blood-vessels (F. Hiller and R. R. Grinker), 172
Circulatory disturbances, functional, causing acute brain diseases (E. de Vries), 348
CLAREMONT, CLAUDE A.: The psychology of sea-sickness, 272
CLAUDE, H.: Cytology of the cerebrospinal fluid in general paralysis treated by malaria, 82—Syndrome of post-choreic rigidity with dementia, 268
Claudication, intermittent, treated with muscle extract (M. S. Schwarzmann), 73
COBB, S. (and G. SCHALTENBRAND): Unilateral "thalamus cats" and "striatum cats," 347
Coloration, vital, in the nervous system (C. Bellavitis), 261
Congress, International Neurological, Berne (1931), 95, 380
CONTI, A. (and U. POPPI): Vascular syndromes of the optic thalamus, 354
Convulsions, epileptiform (H. L. Parker), 175
Convulsions experimentally produced, problem of localisation in (F. H. Pike, C. A. Elsberg, W. S. McCulloch and M. N. Chappell), 168
Convulsive seizures, their production and control (Temple Fay), 353
Convulsive state, anatomical substratum of the (W. Spielmeyer), 172
CORNIL, L.: Spinal forms of von Recklinghausen's disease, 177
Cortex, cerebral, during unconsciousness, (R. L. Worrall), 328
COURNAND, ANDRÉ: *La Sclérose en Plaques Aiguë*, review, 90
CRICHTON-MILLER, H.: *Insomnia*, review, 87
Cramps, functional, pathogenesis of (Fedele Negro), 360
Criminal courts of the United States, psychiatric facilities in (Winifred Overholser), 372
Criminal justice, significant transformations in the administration of (Sheldon Glueck), 84
Criminality in encephalitis (A. Wimmer), 367
Criminals, psychoses in (B. Karpman), 78
Cysticercus of the brain and eosinophilia in the spinal fluid (C. Rizzo), 356

D.

DADDI, G.: The tissue, cytological, and vascular alterations of the central nervous system in the pathogenesis of cerebral hæmorrhage, 259
DAVIS, T. K.: Basal metabolism and gastro-intestinal findings in epileptic patients, 73
Deaf-mute, the upper temporal surface of the brain in a (L. Horn), 350
DE BIRAN, MAINE: *The Influence of Habit on the Faculty of Thinking*, review, 191
Decerebrate rigidity, relation of the level of transection of the brainstem to the occurrence of (W. F. Windle), 64
DE GIACOMO, U.: The congenital morphological anomalies of the cranium and the vertebral columns in hereditary ataxia, 261—Anatomy, physiology, and pathology of the red nucleus, 346
DE JONG, H.: Mescalin catatonia and the experimental production of the manifestations of dementia præcox, 275
Deliria, alcoholic, spinal drainage in (Harry Goldsmith), 280
Dementia paranoides following prolonged narcosis, cure of a case of (D. Schrijver), 370.
Dementia præcox, the etiology of (W. S. Jagoe Shaw), 274

Dementia præcox, examination of cases of during the three-year period 1926-1928, by histo-neuropathological and encephalographic methods and by examination of the cerebro-spinal fluid (V. M. Buscaino), 274
Dementia præcox, the hepatic function in (S. Gullotta), 366
Dementia præcox, mescalin catatonia and the experimental production of the manifestations of (H. de Jong), 275
Dementia præcox, the problem of, 60
Dementia præcox, therapeutic effect of assisted respiration in established cases of (Gordon Frank Peters), 370
DE NIGRIS, G.: The genito-cutaneous reaction in the insane, 278
DERRY, E. M.: Syndromes of tumours in the chiasmal region, 355
DE THURZO, EUGENE: Biological and serological methods of diagnosis in epilepsy, 36
Development, mental and physical, of children prematurely born (G. J. Mohr and P. Bartelme), 365
DE VRIES, E.: Acute diseases of the brain due to functional disturbance of the circulation, 348
DHUNJIBHOY, JAL EDULJI: Types of insanity commonly met with in India, with a full description of "Indian hemp insanity," 182
DIDE, M. (and P. GUIRAUD): *Psychiatrie du Médecin Praticien*, second edition, review, 190
Diet, ketogenic, in epilepsy, (Edward M. Bridge), 356
DIETHELM, O: On bromide intoxication, 365
DIMOLESCO, A.: Cytology of the cerebrospinal fluid in general paralysis treated by malaria, 82
Disease, system. *See* System
DIVRY: Meningitis associated with occlusion of the spinal cavity, 174
DODGE, RAYMOND: Optic nystagmus, 267
DOSUZKOV, THEODORE: A case of "hormetonia" (Davidenkoff) resulting from an intraventricular hæmorrhage, 269
DRAGANESCO, S.: Clinico-anatomical study of a case of Foerster's syndrome, 70
DUMAS, GEORGES (Editor): *Nouveau Traité de Psychologie*, review, 187
DUNCAN, A. GLEN: The serum cholesterol in mental disorders, 78
Dystrophy, adiposo-genital, in a Mongol (R. M. Stewart), 324

E.

ECONOMO, C. v.: Sleep as a problem of localisation, 169—(and L. HORN): The anatomy of the superior temporal surface, 346
EISELSBERG, A.: *Die Hypophyse*, review, 90
Electrical skin resistance during hypnosis (M. Levine), 366
ELSBERG, C. A.: Problem of localisation in experimentally induced convulsions, 168
Emotional moods induced by suggestion in hypnosis, metabolic rate of (J. C. Whitehorn, Helge Lundholm, and G. E. Gardner), 75
Emotional states and basal metabolism (G. W. Henry), 80
Emotions in terms of the galvanometric technique (Christian A. Ruckmick), 271
Encephalitis, criminality in (A. Wimmer), 367
Encephalitis, epidemic (Arthur Pool.) 45
Encephalitis epidemic, chronic, pathology of (Robert Carmichael), 207
Encephalitis, epidemic, optic fundus changes in (S. Rothenberg), 354
Encephalitis, epidemic, chronic, epileptic manifestations in (J. Notkin), 175
Encephalitis, non-suppurative in childhood (W. Spielmeyer), 67
Endocrine-graphology (Camile Streletzki), 357
Eosinophilia in the spinal fluid and cysticercus of the brain (C. Rizzo), 356
Epilepsy as an exaggerated form of normal cerebral inhibition (Joshua Rosett), 353
Epilepsy, diagnosis of by biological and serological methods (Eugene de Thurzo), 36
Epilepsy, the control of convulsive seizures by means of dehydration (T. Fay), 178
Epilepsy, idiopathic, pathological changes in the region of the tuber cinereum in (Lawrence O. Morgan and Hugh S. Gregory), 67
Epilepsy, mechanism of the ketogenic diet in (Edward M. Bridge), 356
Epilepsy, neurosomatic deterioration in (Morgan B. Hodskins and Paul I. Yakovlev), 352
Epileptic, the insane, perseveration in the (John H. Ewen), 279
Epileptic manifestations in chronic epidemic encephalitis (J. Notkin), 175
Epileptic patients, basal metabolism and gastro-intestinal findings in (T. K. Davis), 73
Epileptic subjects, inorganic phosphorus in the blood of (E. Mondio), 350
Epileptiform convulsions (H. L. Parker), 175
Epileptics, interparoxysmal respiratory rate of (S. M. Weingrow), 70
Epileptics, myoclonus in (Morgan B. Hodskins and Paul I. Yakovlev), 69
EWEN, John H.: Perseveration in the insane epileptic, 279
EWING, A. W. G.: *Aphasia in Children*, review, 283
EWING, IRENE R.: *Lipreading*, review, 93
Extroversion-introversion, relation of to intelligence and tuberculosis (Clarence A. Neymann), 181
